

REMARKS/ARGUMENTS

Examiner has stated that the drawings file 10/27/03 have been received. However, an inconsistency exists between the drawings and the Brief Description of the Drawings in the specification. Figures 93 and 94 are contained in the Drawings but not listed in the Brief Description of the Drawings in the specification.

In response, Applicant has amended the Brief Description of the Drawings so that FIGS. 93 and 94 are now listed. No new matter has been added.

Conclusion

Thus, for all the reasons given above, this application, as the claims are presently limited, defines a novel, patentable, and truly valuable invention. Hence allowance of all outstanding claims in this application is respectfully submitted to be proper and is respectfully solicited.

Respectfully Submitted,
